LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Sacramento Charter High School
CDS Code: 34674390102038
School Year: 2021 – 22
LEA contact information: Nicole M. Michalik, Ph.D. nmichalik_contractor@sthopepublicschools.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2021 – 22 School Year

Projected Revenue by Fund Source

- Total LCFF Funds, $4569927, 66%
- All Other LCFF funds, $3,759,307, 54%
- LCFF supplemental & concentration grants, $810,620, 12%
- All federal funds, $608,937, 9%
- All local funds, $223,721, 3%
- All other state funds, $1,556,934, 22%

This chart shows the total general purpose revenue Sacramento Charter High School expects to receive in the coming year from all sources.

The total revenue projected for Sacramento Charter High School is $6,959,519.00, of which $4,569,927.00 is Local Control Funding Formula (LCFF), $1,556,934.00 is other state funds, $223,721.00 is local funds, and $608,937.00 is federal funds. Of the $4,569,927.00 in LCFF Funds, $810,620.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

</tr>
<tr>
<td>$0</td>
</tr>
</tbody>
</table>

This chart provides a quick summary of how much Sacramento Charter High School plans to spend for 2021 – 22. It shows how much of the total is tied to planned actions and services in the LCAP.

Sacramento Charter High School plans to spend $5,868,795.00 for the 2021 – 22 school year. Of that amount, $4,328,698.00 is tied to actions/services in the LCAP and $1,540,097.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General Fund expenditures for the 2021-22 school year are allocated the standard expenses necessary to operate the school. Including but not limited to staffing, rent, utilities, internet, material and supplies.

Increased or Improved Services for High Needs Students in the LCAP for the 2021 – 22 School Year

In 2021 – 22, Sacramento Charter High School is projecting it will receive $810,620.00 based on the enrollment of foster youth, English learner, and low-income students. Sacramento Charter High School must describe how it intends to increase or improve services for high needs students in the LCAP. Sacramento Charter High School plans to spend $222,425.00 towards meeting this requirement, as described in the LCAP. The additional improved services described in the plan include the following:

Sac High's unduplicated percent is above 70% and as such the school uses additional funding to increase the school's support team and keep class sizes relatively small to support all scholars including low-income, foster, homeless and English learner scholars.
LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2020 – 21

This chart compares what Sacramento Charter High School budgeted last year in the Learning Continuity Plan for actions and services that contribute to increasing or improving services for high needs students with what Sacramento Charter High School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2020 – 21, Sacramento Charter High School’s Learning Continuity Plan budgeted $24,000.00 for planned actions to increase or improve services for high needs students. Sacramento Charter High School actually spent $78,032.00 for actions to increase or improve services for high needs students in 2020 – 21.
The following is the local educational agency’s (LEA’s) analysis of its goals, measurable outcomes and actions and services from the 2019-20 Local Control and Accountability Plan (LCAP).

Goal 1

Ensure all students graduate prepared to attend and succeed at a four-year college/university

State and/or Local Priorities addressed by this goal:

</tbody>
</table>
- Develop forum for teachers to share best practices and collaborate with educators
- Set aside funding for staff to attend conferences, seminars and trainings as needed (federal, state, local).
- Strengthen process for recruiting and hiring teachers with appropriate credentials. Provide continuing education training to teachers on a case by case basis to maintain certification.
- Implement comprehensive teacher evaluation system.
- Train teachers to identify low performing students and provide targeted supports and early interventions to these students.
- Train teachers to address the needs of students with differentiated learning styles, particularly students with disabilities, special learning needs (including gifted and talented), and ELL students.
- Train teachers to use and integrate technology into curricula and instruction.
- Train teachers in making data driven decisions in the classroom using benchmark and college readiness assessments and the tracking of student academic achievement in the classroom and on state mandated assessments.
- Train teachers to improve classroom management, school climate and culture, and student behavior.
- Train teachers to partner with parents in their child’s education.
- Provide individual and team-focused professional development and support for teachers, staff and administrators.
- Implement professional development on building an EL program, ELD standards, and integrated and designated ELD.

**Strengthen infrastructure for ongoing analysis of student performance and progress.**

- Create (or select) CCSS aligned EOY and benchmark assessments.
- Track and reflect on student achievement data at least quarterly to determine areas of growth and establish concrete next steps around those focus areas.

**Expand opportunities for students to receive academic support and become more interested in school and learning (including enrichment, after school programming and college exploration).**

- Strengthen Advisory Curriculum.
- Strengthen electives program.
- Expand course offerings and accelerated learning options (e.g. AP classes).
- Increase student exposure to the college matriculation process.
- Continue Sac High’s partnership with College Track as cohorts of seniors continue to matriculate to college.

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

The vast majority of planned actions and strategies towards Goal # 1 were implemented in 2019-20 up until the COVID-19 school closure in March 2020. The Title II budgeted amount was based on an estimate - all Title II funds were expended for 2019-20.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Successes (what is working/effective):

In 2019-20, we were able to have small class sizes as well as co-teachers in English and math classes in 9th and 10th grade which allowed for strategic one-on-one supports.

The school utilized benchmarks that were rigorous and aligned to common core standards. The data provided by the benchmarks, as well as other data, roote decision making in data. Students also reflected on their data, inspiring them to focus on what they struggled with in their classes. Teachers consistently engaged in the process of reflecting, collaborating, and working in grade level teams.

Professional development (PD) was also a success. The school has 21 days of PD built into the calendar in addition to weekly sessions. In addition to larger PD sessions to cover a wide range of topics of interest to all teachers such as classroom culture, de-escalating situations in the classroom, special education and instructional execution, the school focused on peer observations, reflections and individual coaching. Each staff member had a direct manager who conducted weekly observations and debriefs to help them improve and grow in their teaching practice. New teachers had additional time before school started in August to onboard in addition to almost 2 weeks of PD for all teachers that took place before day 1 of the school year. Teachers asked for additional time to plan (½ day every 3 weeks) which was built into the schedule and allowed for individual and team planning. There was also PD put on by students.
The Advisory program continues to be a success. Advisory teachers were given specific things to do each week in advisory and senior advisors particularly liked the curriculum provided to support graduating scholars.

**Challenges (what is not working/ineffective):**

The challenges from 2019-20 focused on building on the successes. For example, the co-teaching model supported scholars in 9th and 10th grade math and English, but could be expanded. The advisory program, although well liked by all stakeholders, was in need of a coordinator to fully align the curriculum from 9-th to 12th grade. We have seen a decline in elective, enrichment and AP courses that would benefit scholars, along with vertical alignment from the elementary school to high school AP courses. Some teachers indicated that they would like to see even more PD from outside sources to expand resources.

**Goal 2**

Ensure all students are educated in learning environments that are clean, healthy, and safe.

State and/or Local Priorities addressed by this goal:

State and Local Priorities: 1, 4, 5, 6, 8

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

City Year was on campus in 2019-20 as planned; however, the program was funded from the general fund not Title I

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Successes (What is working/effective):

City Year was on campus in 2019-20 and provided consistent support in math and humanities for 9th graders. The school had a students services coordinator as well as a school psychologist on staff to support a variety of student needs. The parent-student handbook was thoroughly reviewed and revised to reflect the current culture and expectations of the school. The Dean Team continued to provide a consistent presence on the campus that upheld expectations and built relationships with scholars and families.

Challenges (What is not working/ineffective):

Again, what did not work was in many ways a reflection on expanding what was working. Sac High would benefit from additional health and wellness resources for scholars. Teachers would like to review school behavior data and see more continuity across grade levels in upholding expectations. As we continue to build the Sac High program and grow grade level by grade level each year, it is expected that the continuity will be more evident.

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

Expenditures for items such as weekly communications (i.e., the communication folders) and surveys are not tracked as these occur onsite on a daily or regular basis. For 2021-22, the LCAP/SPSA will also include areas such as automessaging, the school information system (parent/student portal) and other communication systems to better track communication expenditures. Parent engagement activities continued throughout the school year in 2019-20, but expenditures are minimal per offering.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Successes (what is working/effective):

Sac High believes in communicating regularly with families at all levels - individual scholar, classroom, and schoolwide. Weekly packets were sent home to families, called Dragon Packes, with any information from the school including the weekly newsletter. Course grade and behavior reports went out weekly to families and they always had access to the Illuminate parent portal to check these areas in addition to attendance. Autocommunication tools such as email and text messaging allowed for rapid communication in the event of special circumstances, but also for regular communication in modes accessible and desired by many families. An area of success was the increased use of informal parent surveys (surveys outside of the annual parent survey) and parent focus groups. These were implemented in response to COVID-19 to gather parent input and continued into 2020-21.

Sac High also believes that school events lead to greater engagement. The school, even after the COVID-19 closure, was able to hold multiple events both in-person and virtually at least each quarter including: Summer Orientation, Back To School Night, Parent Conferences, Literacy Night, and more.
Challenges (what is not working/ineffective):

A major challenge was completing the annual surveys as they were scheduled for March 2019. When the school closed, and the school shifted rapidly to distance learning, the survey was put on the backburner to focus on scholar academic and social/emotional needs. In addition, some teachers indicated that they would like to receive all communications sent home to families so they know exactly what is communicated.

Goal 4

Build a high performing organization that is financially sustainable and recognized as a leader in public education locally and statewide.

State and/or Local Priorities addressed by this goal:

State and Local Priorities: 1, 3, 4, 5, 7, 8

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

NA

A description of the successes and challenges in implementing the actions/services to achieve the goal.

**Successes (what is working/effective):**

Each year, we continue to increase our focus on and means to evaluate attendance at Sac High. In 2019-20 there was a focus on clear consequences (i.e., for tardies/late) that are outlined to staff, scholars, and families. Office staff making constant calls to families and teachers/dean follow ups to ensure parents receive consistent communication. Attendance was promoted as a positive aspect of scholar life and scholars with perfect attendance were posted publicly to be celebrated and these scholars received certificates on awards night. The school also instituted Culture Cups which were competitions to target areas of school cultures.

**Challenges (what is not working/ineffective)**

The COVID-19 school closure at the end of 2019-20 presented its own set of unique challenges as attendance depended on a reliable internet connection. Although the school was able to provide families with obtaining internet connections if they did not have access prior to the school shutdown, stability and connectivity was always an issue.
Annual Update for the 2020–21 Learning Continuity and Attendance Plan

The following is the local educational agency’s (LEA’s) analysis of its 2020-21 Learning Continuity and Attendance Plan (Learning Continuity Plan).

In-Person Instructional Offerings

<td>$14,000</td>
<td>$5,240</td>
<td>No</td>
</tr>
</tbody>
</table>

A description of any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions.

When the Learning Continuity and Attendance Plan was originally written, in early fall 2020, the school was still in full distance learning. Although the school was preparing for a hybrid model, or potential return to full in-person instruction later in the year, the full extent of the necessary equipment and supplies to bring scholars back on campus was not fully known. Analysis of In-Person Instructional Offerings

A description of the successes and challenges in implementing in-person instruction in the 2020-21 school year.

Successes:

For the majority of the school year, Sac High was the only public high school in Sacramento County offering in-person instruction in a hybrid model. The school welcomed scholars back in November 2020 and the percentage of students participating in hybrid instruction has grown in the 4th quarter of the school year. To transition scholars and families back on campus we held several family orientation events and had consistent family communication to talk through our in-person learning model. We focused on strong on-campus procedures and restructuring our campus to ensure social distancing, cohorting, separate grade level arrivals, grade level dismissals, grade level lunch locations, one way hallways, and grade level hallways on campus.

To ensure the health and safety of staff, scholars and families, we implemented a number of procedures including:
- Temperature checks and health screening upon arrival at school.
- A trained contact tracer on our staff and on our school campus.
- Scheduling to ensure scholars transitioned in cohorts throughout the school day and were around the same scholars in each class period.

Within the hybrid model, scholars received in-person instruction two days a week, virtual instruction one day a week, and completed asynchronous work two days a week. Teachers taught lessons based on common core state standards and focused on maximizing their instructional time. The co-teaching model was successful in hybrid learning.

**Challenges:**
The transition to hybrid instruction meant going from five objectives a week to three objectives a week and condensing instruction. This presented a challenge to teachers in planning and execution while trying to stay on track with the sequence of instruction as laid out for the year. In addition, although chronic absenteeism decreased from 2019-20 to 2020-21, there were a number of scholars who did not attend consistently, even after hybrid was implemented.

### Distance Learning Program

</table>
A description of any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions.

When the Learning Continuity and Attendance Plan was originally written, in early fall 2020, the school was in full distance learning. Based on the funding available at the time and a needs assessment of scholar device and connectivity, the school was able to ensure that all scholars had access to a reliable device and an internet connection. As the year progressed not only was new funding released, but the ongoing maintenance of devices and connectivity was reassessed to ensure that scholars continued to have what they needed to get online and attend all classes live, each day. In addition to providing devices and hotspots, the school was able to provide some families with further assistance to get reliable internet services. Teachers were also provided with updated laptops as necessary.

### Analysis of the Distance Learning Program

A description of the successes and challenges in implementing each of the following elements of the distance learning program in the 2020-21 school year, as applicable: Continuity of Instruction, Access to Devices and Connectivity, Pupil Participation and Progress, Distance Learning Professional Development, Staff Roles and Responsibilities, and Support for Pupils with Unique Needs.

#### Successes:

After three months of distance learning in spring 2020, we gathered input from teachers, staff, and families on the best strategies for implementing distance learning in 2020-21. Surveys and focus groups overwhelmingly asked for more live lessons so we created a structured schedule that mirrored a regular school day and had live lessons each day using Google Classroom and Zoom. Within these live lessons, breakout rooms provided additional support for students using the co-teaching model. Students with special needs were able to obtain virtual services during the day as well. There were daily objectives and assignments in addition to live instruction. Teachers taught aligned to Common Core Standards and focused on rigorous instruction to ensure they still taught all of their content standards. We continued to hold weekly virtual advisory classes to allow for team and community building. In addition, we offered Virtual Office Hours to support scholars three days a week after school.

Even in a virtual world, the school was able to hold virtual parent events such as Summer Orientation, Back to School Night, Parent Conferences and safe pick-up events for scholars to recognize scholar academic achievement in our Distance Learning model. There was consistent family communication through bimonthly mailers, autocommunication, and in-person phone calls, including daily phone calls to scholars who were absent by our Deans and Operations Team members.

| Increased consulting of College Counseling | $24,000 | $11,895 | No |
All scholars who needed a chromebook received one and many families received support in obtaining reliable internet.

To engage scholars, the school had virtual clubs for scholars such as STEM, Finance, and more, and maintained student touchpoints through weekly videos put on our leadership body Senate and virtual Spirit Days.

**Challenges:**
Despite the many successes in offering distance learning, there were still many scholars that did not attend regularly. Keeping scholars and families focused and engaged continued as a challenge all year with so many variables impacting individual scholar attendance.

## Pupil Learning Loss

### Actions Related to the Pupil Learning Loss

A description of any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

As additional funding was released for the 2020-21 school year, Sac High was able to hire 1 additional co-teacher to provide support in classes. In addition, staff were given Hero Pay for the school year.

### Analysis of Pupil Learning Loss

A description of the successes and challenges in addressing Pupil Learning Loss in the 2020-21 school year and an analysis of the effectiveness of the efforts to address Pupil Learning Loss to date.
Successes:
We were able to carry out the strategies and actions as planned to help mitigate pupil learning loss, including:

- Virtual small group instruction at designated times throughout the school week for scholars with Specialized Academic Instruction minutes. Students with related services (i.e., Language and Speech, individual counseling) were able to access these services virtually, at designated times, with each scholar’s various service providers.

- EL, special education, 504 scholars and any scholar identified as needing extra support received additional support in the co-teaching model. 1 additional TA was hired during the school year.

- Breakout rooms in Zoom allowed for small group instruction and parallel teaching with co-teachers (core classes) to address additional differentiated learning needs.

- Office hours at the end of each day except for early release days.

- Frequent assessments of scholar learning including daily exit tickets, unit assessments and quarterly benchmarks that assessed potential learning loss.

Challenges:
We saw a decline in scholar grades with Distance learning, which greatly improved with the addition of in-person learning. Some of this was related to inconsistent attendance.

Analysis of Mental Health and Social and Emotional Well-Being
A description of the successes and challenges in monitoring and supporting mental health and social and emotional well-being in the 2020-21 school year.

Successes:
Sac High monitored and supported mental health and social and emotional well-being through regular communication, opportunities for scholars to interact outside of academics, and providing additional support as necessary for those scholars in need. This included:

- Regular teacher check-ins with individual students
- Constant communication with scholars and parents/guardians through email, phone, and Class Dojo.
- Monthly events on campus for scholars and families to come to campus and interact with teachers/staff using appropriate safety precautions (i.e., masks and social distancing)
- Check-ins by our Dean Team, campus monitors, and other staff including home visits as necessary
- Virtual events for scholars such as clubs and virtual lunch to connect with their peers and build positive relationships virtually
- Daily, weekly and quarterly opportunities for positive incentives
- Use of social emotional curriculum to support mental health
- Support for families to find additional services as necessary

**Challenges:**
Again, the largest challenge was disconnected scholars and families, particularly students who did not attend Advisory. Scholars that were not available could not be monitored for needs.

---

**Analysis of Pupil and Family Engagement and Outreach**

A description of the successes and challenges in implementing pupil and family engagement and outreach in the 2020-21 school year.

**Successes:**
Sac High continued its focus on family outreach through constant communication and activities for scholars and families, including:
- Regular teacher and staff check-ins with individual students
- Regular communication with families such as newsletters, mailed letters, website updates, email blasts and autocalls
- Virtual, and when it was safe and feasible, in-person events to engage families and create a sense of community
- Extracurricular activities for students to engage students and address needs outside of academic needs
- Orientations and Culture weeks at key points to transition families into and out of distance learning
- Multiple modes for scholars/parents to contact teachers and administrators for support such as email, phone, Class Dojo

**Challenges:**
For scholars who did not attend regularly, in many cases there was little two-way communication between the school and family, despite the school’s attendance and re-engagement plans. Although the school was able to hold some in-person events in socially responsible ways, the interactions, which are a key to family engagement, were limited.

**Analysis of School Nutrition**

A description of the successes and challenges in providing school nutrition in the 2020-21 school year.

**Successes:**
All students are eligible to receive free breakfast and lunch because SHPS schools (Sac High and PS7) are Community Eligibility Provision (CEP) schools. To ensure that families were able to access meals in a convenient and safe environment for distance learning scholars, meals were provided in bulk two days a week. This schedule made it more convenient for families and for those families who were restricting outside contact, they were able to minimize interactions with the nutrition staff. Contactless drive-up assisted in this process.

For scholars who returned to campus, grab and go meals were provided to decrease contact. Scholars were spread throughout the campus and assigned seating to maintain social distancing while eating.

In addition, as the Pandemic-EBT (P-EBT) program has rolled out, SHPS has supported families in getting the benefits. The P-EBT program is a federal program that provides money, via a P-EBT card, to spend on groceries. All scholars who were eligible for free/reduced meals, which is all scholars in SHPS, were automatically eligible for the original P-EBT program and the extension, but had to apply. The P-EBT 2.0 program, which is in the process of rolling out as of May 2021, will be issued automatically to all eligible scholars.

**Challenges:**
The number of scholars eating meals during this time dropped as some families chose not to pick up the school meals. The method of distribution, both for distance learning and hybrid, limited the menu and options that scholars had during this time.
Additional Actions and Plan Requirements

Additional Actions to Implement the Learning Continuity Plan

Overall Analysis

An explanation of how lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.

The goals for the 2021-22 LCAP/SPSA* have not changed from those outlined in the 2020-21 SPSA so that we can focus on academics, safety and security, parent engagement, and scholar engagement. And many of the actions/strategies will be the same with refinements and revisions based on a review of the data and input from stakeholders. However, 1.25 years spent in distance learning and limited in-person instruction have altered some plans as we get ready for 2021-22. Learning loss will need to be addressed in the 2021-22 school year and beyond. We have summer school and intersessions planned as usual, but as per our Expanding Learning Opportunities Grant plan, more scholars will be able to attend. The inclusion/co-teaching model will be increased as the additional support of a trained adult in the classroom provides more opportunities for one-on-one and small group interventions. The importance of culture and re-teaching the entire school community will also be a factor in the 2021-22 plan so that teachers, staff, scholars and families can return to campus and the high expectations that Sac High has for all.

* Sac High is an independent charter school and is not required to create a 3-year LCAP. Instead the school creates a 1-year combined LCAP/SPSA
An explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs.

We will continue regular assessment of scholar learning daily, weekly or by unit, and with regular benchmark assessments to ensure that scholars do not continue to fall behind. Students with disabilities, students with 504 plans and English learners will be monitored in accordance with their plans through regular review of data to ensure that these scholars are continuing to make progress towards state standards, but also towards individual goals set for these scholars. As these students have changing needs, their plans will be reviewed to adjust - particularly if the school has to change models during the school year (i.e., from distance learning to/from in-person). The inclusion model and co-teaching will provide additional support in the classroom for these and all students who need additional support. In addition, as outlined in the Expanding Learning Opportunities Grant plan, the school will expand summer school and intersession in addition to increasing staffing for these programs.

A description of any substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement.

The school was able to hire an additional co-teacher due to additional funds that were released during the school year to support schools.

Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

A description of how the analysis and reflection on student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP.

The goals for the 2021-22 LCAP/SPSA* have not changed from those outlined in the 2020-21 SPSA so that we can focus on academics, safety and security, parent engagement, and scholar engagement. And many of the actions/strategies will be the same with refinements and revisions based on a review of the data and input from stakeholders. However, 1.25 years spent in distance learning and limited in-person instruction have altered some plans as we get ready for 2021-22.

We will focus on monitoring our students with IEPs in a more systematic way to gauge progress on IEP goals, not just CAASPP scores. Bringing scholars and families back on campus for instruction and events will be a key to re-engagement, particularly for those scholars and families that were disengaged during the 2020-21 school year. We will continue to focus on attendance as a strong indicator of...
engagement as well as reviewing discipline data as the school is full in-person. The lack of reliable, comparable data over the past 1.25 years makes it necessary to reset baselines and expectations moving forward.

Learning loss will need to be addressed in the 2021-22 school year and beyond. We have summer school and intersessions planned as usual, but as per our Expanding Learning Opportunities Grant plan, more scholars will be able to attend. The inclusion/co-teaching model will be increased as the additional support of a trained adult in the classroom provides more opportunities for one-on-one and small group interventions. The importance of culture and re-teaching the entire school community will also be a factor in the 2021-22 plan so that teachers, staff, scholars and families can return to campus and the high expectations that Sac High has for all.

* Sac High is an independent charter school and is not required to create a 3-year LCAP. Instead the school creates a 1-year combined LCAP/SPSA
Instructions: Introduction

The Annual Update Template for the 2019-20 Local Control and Accountability Plan (LCAP) and the Annual Update for the 2020–21 Learning Continuity and Attendance Plan must be completed as part of the development of the 2021-22 LCAP. In subsequent years, the Annual Update will be completed using the LCAP template and expenditure tables adopted by the State Board of Education.

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education’s (CDE’s) Local Agency Systems Support Office by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Instructions: Annual Update for the 2019–20 Local Control and Accountability Plan Year

Annual Update

The planned goals, state and/or local priorities, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the approved 2019-20 Local Control and Accountability Plan (LCAP). Minor typographical errors may be corrected. Duplicate the Goal, Annual Measurable Outcomes, Actions / Services and Analysis tables as needed.

Annual Measurable Outcomes

For each goal in 2019-20, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in 2019-20 for the goal. If an actual measurable outcome is not available due to the impact of COVID-19 provide a brief explanation of why the actual measurable outcome is not available. If an alternative metric was used to measure progress towards the goal, specify the metric used and the actual measurable outcome for that metric.

Actions/Services

Identify the planned Actions/Services, the budgeted expenditures to implement these actions toward achieving the described goal and the actual expenditures to implement the actions/services.

Goal Analysis

Using available state and local data and input from parents, students, teachers, and other stakeholders, respond to the prompts as instructed.
• If funds budgeted for Actions/Services that were not implemented were expended on other actions and services through the end of the school year, describe how the funds were used to support students, including low-income, English learner, or foster youth students, families, teachers and staff. This description may include a description of actions/services implemented to mitigate the impact of COVID-19 that were not part of the 2019-20 LCAP.

• Describe the overall successes and challenges in implementing the actions/services. As part of the description, specify which actions/services were not implemented due to the impact of COVID-19, as applicable. To the extent practicable, LEAs are encouraged to include a description of the overall effectiveness of the actions/services to achieve the goal.

Instructions: Annual Update for the 2020–21 Learning Continuity and Attendance Plan

Annual Update
The action descriptions and budgeted expenditures must be copied verbatim from the 2020-21 Learning Continuity and Attendance Plan. Minor typographical errors may be corrected.

Actions Related to In-Person Instructional Offerings
• In the table, identify the planned actions and the budgeted expenditures to implement actions related to in-person instruction and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.

• Describe any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions, as applicable.

Analysis of In-Person Instructional Offerings
• Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing in-person instruction in the 2020-21 school year, as applicable. If in-person instruction was not provided to any students in 2020-21, please state as such.

Actions Related to the Distance Learning Program
• In the table, identify the planned actions and the budgeted expenditures to implement actions related to the distance learning program and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.

• Describe any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions, as applicable.
**Analysis of the Distance Learning Program**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in implementing distance learning in the 2020-21 school year in each of the following areas, as applicable:
  - Continuity of Instruction,
  - Access to Devices and Connectivity,
  - Pupil Participation and Progress,
  - Distance Learning Professional Development,
  - Staff Roles and Responsibilities, and
  - Supports for Pupils with Unique Needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.

To the extent practicable, LEAs are encouraged to include an analysis of the effectiveness of the distance learning program to date. If distance learning was not provided to any students in 2020-21, please state as such.

**Actions Related to Pupil Learning Loss**

- In the table, identify the planned actions and the budgeted expenditures to implement actions related to addressing pupil learning loss and the estimated actual expenditures to implement the actions. Add additional rows to the table as needed.
- Describe any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions, as applicable.

**Analysis of Pupil Learning Loss**

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in addressing Pupil Learning Loss in the 2020-21 school year, as applicable. To the extent practicable, include an analysis of the effectiveness of the efforts to address pupil learning loss, including for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils who are experiencing homelessness, as applicable.
Analysis of Mental Health and Social and Emotional Well-Being

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in monitoring and supporting Mental Health and Social and Emotional Well-Being of both pupils and staff during the 2020-21 school year, as applicable.

Analysis of Pupil and Family Engagement and Outreach

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges related to pupil engagement and outreach during the 2020-21 school year, including implementing tiered reengagement strategies for pupils who were absent from distance learning and the efforts of the LEA in reaching out to pupils and their parents or guardians when pupils were not meeting compulsory education requirements or engaging in instruction, as applicable.

Analysis of School Nutrition

- Using available state and/or local data and feedback from stakeholders, including parents, students, teachers and staff, describe the successes and challenges experienced in providing nutritionally adequate meals for all pupils during the 2020-21 school year, whether participating in in-person instruction or distance learning, as applicable.

Analysis of Additional Actions to Implement the Learning Continuity Plan

- In the table, identify the section, the planned actions and the budgeted expenditures for the additional actions and the estimated actual expenditures to implement the actions, as applicable. Add additional rows to the table as needed.

- Describe any substantive differences between the planned actions and/or budgeted expenditures for the additional actions to implement the learning continuity plan and what was implemented and/or expended on the actions, as applicable.

Overall Analysis of the 2020-21 Learning Continuity and Attendance Plan

The Overall Analysis prompts are to be responded to only once, following an analysis of the Learning Continuity and Attendance Plan.

- Provide an explanation of how the lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.
As part of this analysis, LEAs are encouraged to consider how their ongoing response to the COVID-19 pandemic has informed the development of goals and actions in the 2021–24 LCAP, such as health and safety considerations, distance learning, monitoring and supporting mental health and social-emotional well-being and engaging pupils and families.

- Provide an explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs (including low income students, English learners, pupils with disabilities served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness).

- Describe any substantive differences between the actions and/or services identified as contributing towards meeting the increased or improved services requirement, pursuant to California Code of Regulations, Title 5 (5 CCR) Section 15496, and the actions and/or services that the LEA implemented to meet the increased or improved services requirement. If the LEA has provided a description of substantive differences to actions and/or services identified as contributing towards meeting the increased or improved services requirement within the In-Person Instruction, Distance Learning Program, Learning Loss, or Additional Actions sections of the Annual Update the LEA is not required to include those descriptions as part of this description.

Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

The Overall Analysis prompt is to be responded to only once, following the analysis of both the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan.

- Describe how the analysis and reflection related to student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP, as applicable.

California Department of Education
January 2021
Local Control and Accountability Plan (LCAP) and School Plan for Student Achievement (SPSA)

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

## Plan Summary [2021-22]

### General Information

A description of the LEA, its schools, and its students.

Sacramento Charter High School (SCHS/Sac High) is a college-prep independent charter school serving grades 9-12. The Sacramento City Unified School District (SCUSD) approved the school’s original charter in 2003 and has awarded Sac High five-year renewals since then. The school is currently renewed through the 2021-22 school year. Sac High earned WASC accreditation during the first year of operations and has maintained accreditation since.

Approximately 70% of Sac High students are eligible for free or reduced-price meals as a part of the National School Lunch Program. The Sac High student population is inclusive of students with a wide range of talents and abilities. Sac High also provides Special Education services and an English Language Development Program to students whose native language is other than English.

Sac High’s college-going culture is designed to give all students the opportunity to be accepted to, attend and ultimately graduate from, a four-year college. Sac High’s graduation requirements match the college entry requirements for public universities in California, known as the A-G requirements to ensure scholars are able to be accepted to in-state institutions.

Sac High has high expectations for academic achievement and conduct that are clearly defined, measurable, and make no excuses based on the background of students. The school is guided by the following Expected Schoolwide Learning Results (ESLRs):

1. Students will be industrious, critical thinkers demonstrated by their academic success in all content areas.
2. Students will be lifelong learners who are prepared to attend and be successful at a 4 year college.
3. Students will be knowledgeable and effective citizens who demonstrate leadership and interpersonal skills in diverse settings and are committed to serving others.

**Reflections: Successes**

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

The 2020-21 school year presented an entirely new set of challenges for staff, teachers, scholars and families. Despite the challenges presented, Sac High had success or made progress in a number of areas.

**In-person instruction, access to a broad course of study, and targeted supports:** For the majority of the school year, Sac High was the only public high school in Sacramento County offering in-person instruction in a hybrid model. The school welcomed scholars back in November 2020 and the percentage of students participating in hybrid instruction has grown to 43% in the 4th quarter of the school year. Both models offered students a full-range of courses to help them meet Sac High’s high graduation requirements while offering additional support to high-needs groups such as English learners and students with disabilities through the co-teaching and inclusion models. All of this required double-planning by administrators, staff and teachers so that the school could pivot it’s instructional model as necessary based on COVID-19 restrictions while trying to minimize learning loss and addressing additional scholar and family needs, such as social/emotional and food/nutrition.

**Graduates:** It is expected that 100% of current seniors (as of April 2020) will graduate and that 100% of graduates will be UC/CSU eligible by graduating having fulfilled the A-G requirements. In addition, 90% of current 12th graders have been accepted to a 4-year college or university despite the challenges of applying for schools in a virtual world. Sac High hired an additional part-time college coordinator to help scholars and families navigate the process.

**Student and family engagement:**

**- Events and sports:** The school was able to continue to hold events for students and families considering the health and safety of all participants. From virtual orientations to on-campus award pickups and graduation and prom for seniors, the school worked hard to engage the Sac High community and keep as many opportunities for scholars as possible. Although limited, this included athletics, from conditioning to full interleague play.

**- Attendance:** Although chronic absenteeism is not an indicator on the California Dashboard for high schools (k-8th schools only), Sac High saw a decrease in chronic absenteeism from 2019- to 2020. Sac High’s chronic absenteeism rate dropped from 26.3% to...
16% from 2019-20. Although the data is difficult to interpret across the years due to COVID-19, the school was able to engage students in a difficult time that included full distance learning and hybrid instruction models.

- **State testing:** The school kept to its plan to administer the state annual assessments, CAASPP and CAST, to all students as required. Although some challenges were encountered due to device setup, remote testing, and the challenge of having an increased number of students on campus, the school is well on its way to meeting its participation goals for all students and all student groups.

**Reflections: Identified Need**

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

**Resetting school culture and behavior:** As scholars have not been on campus full-time since March 2019, Sac High has not had the daily contact with scholars to consistently and constantly reinforce school expectations. In addition, the school now has two years of data on scholar behavior, particularly suspension data, that is not comparable to previous years. This makes it difficult to see how progress that was made through March 2019 would have developed. Scholars, staff, teachers and families will need to be reset on school expectations as scholars return to 100% in-person instruction. Teachers and staff will have additional professional development prior to the start of school and throughout the year to reset expectations. Scholars and families will have opportunities to orient themselves to the school’s expectations through orientations, on-campus work (i.e., culture week and advisory), and daily contact with staff and teachers.

**Increasing English learners’ progress towards meeting state standards:** As with most school data moving into 2021-22, English learner progress towards meeting state standards will have gaps in comparable data. However, in the most recent years with available data, Sac High EL scholar reclassification rates had dropped dramatically. Since then, the school has identified a teacher to bring attention to EL scholars in the classroom through systematic tracking of individual student progress and additional professional development on EL standards and working with EL students in the class. In addition, the school will continue to offer a co-teaching model with teaching assistants in core classes to support EL students.

**Monitoring schoolwide progress on IEP goals:** Scholars with disabilities (special education scholars) have historically not performed on par with the rest of their peers on state assessments. To better track individual student progress, the school has
begun to focus on the goals established in students' individual education programs (IEPs) and tracking progress on these goals on a schoolwide basis as a metric for success for these students in addition to progress made on state assessments and in course work.

**LCAP Highlights**

A brief overview of the LCAP, including any key features that should be emphasized.

Sac High’s 2021-22 LCAP/SPSA has 5 identified goals aligned with the LCFF State Priorities:

1. Provide all scholars with access to a high quality education that puts them on the path to and through college
2. Ensure all scholars are educated in learning environments that are clean, healthy and safe
3. Build a strong sense of community through frequent, transparent communication with families and provide ample opportunities for families to engage and support their children’s education
4. Provide scholars with ample and varied opportunities to engage in the school community
5. Build a high performing organization that is financially sustainable and recognized as a leader in public education locally and statewide

The plan outlines identified actions and activities for the 2021-22 school year acknowledging the unique situation presented by COVID-19 in 2019-20 and 2020-21 and that the plan may change as the school year progresses. This is a 1-year plan.

**Title I Schoolwide Program** - Schoolwide programs address the educational needs of children living in impoverished communities with comprehensive strategies for improving the whole school so every student achieves high levels of academic proficiency. California *Education Code* 64001 and the Every Student Succeeds Act (ESSA) requires schools that receive federal funds through the ConApp to consolidate all school planning requirements into the SPSA (School Plan for Student Achievement). Single school districts and charter schools may use the local control and accountability plan (LCAP) to serve as the SPSA, provided that the local control and accountability plan meets federal school planning requirements and the stakeholder requirements in subdivision (a) of Section 52062, and is adopted at a public hearing pursuant to Section 52062 or 47606.5, as applicable.

**Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.
Schools Identified
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Not applicable for Sac High.

Support for Identified Schools
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not applicable for Sac High.

Monitoring and Evaluating Effectiveness
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not applicable for Sac High.
Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

The school begins formal SPSA/LCAP planning in the winter/spring of each year.

1. Starting in the late fall/spring the schoolsite council (SSC) reviews available data and actions/strategies from the current plan to determine what is/is not ‘working’ towards meeting the school’s goals. This process takes several meetings.
2. Administrators further evaluate the data and the review done by the SSC in determining goals and actions/strategies for the next school year. The school aligns its goals with the California Dashboard indicators and LCFF priorities.
3. Sac Hlgh had it’s 3-year WASC (Western Association of Schools and Colleges) review in 2020-21. The WASC review looks at the school’s plan (the LCAP/SPSA) and provides outside input from committee members that are from the k-12 education world.
4. The plan is then created with staff input and presented to the SSC for approval (May 2021) and recommendation to the SHPS board of directors.
5. The plan is presented at a public meeting of the Board of Directors (May 27, 2021) and open for public comment.
6. The plan is presented at a regular board meeting for final adoption (June 29, 2021).

A summary of the feedback provided by specific stakeholder groups.

The Sac High schoolsite council started to look at the 2021-22 LCAP/SPSA in the late fall by reviewing the available data on the 2020-21 SPSA goals (the LCAP was not required for 2020-21) and the strategies and activities that were aligned with those goals. The school also went through a 3-year WASC update as part of the 6-year accreditation it received in 2017-18. The leadership team (site lead, deans of culture of instruction, and the head dean) identified the school's successes and challenges since 2017-18 as part of the annual review and walked the WASC committee through the state of the school. The leadership team, including the chief of schools, site leads, deans of culture and instruction, and the head dean also bring feedback from their teams to the process. Feedback from teachers and staff throughout the school year contributes to the evaluation of progress and finding better ways to accomplish the school’s goals.

A description of the aspects of the LCAP that were influenced by specific stakeholder input.

The schoolsite council identified a lot of successes to continue to build upon in the next year:
- Continued work on breaking down standards in curriculum development
- Increased PD opportunities, including staff created PD
- Weekly observations and feedback
- Alignment of expectations and approach to instruction/learning

- Strategic placement of student in classes with co-teachers
- Student engagement events (even during COVID-19!) and senates ongoing role in this

The group also identified some areas to review and grow:
- More differentiated PD and PD specific to content areas
- More time for curriculum planning within content areas
- Increased messaging on uniforms and dress code

One area that has been developing in 2020-21 that will be expanded in 2021-22 is monitoring the academic progress of students with disabilities outside of just monitoring CAASPP scores. After reflection, the special education team will come up with a systematic way to track progress on IEP goals for individuals as well as schoolwide. Sac High has also come up with a better process to review teacher assignments each school year towards ensuring that there are zero teacher misassignments. Another area that was influenced by stakeholder input is the need to reset expectations for next school year for staff, teachers, scholars and families. After 1.25 years of distance learning and hybrid instruction, all of these groups will likely return full-time to campus next year allowing for an opportunity to revisit and reset academic and social/behavioral expectations.

The WASC visiting committee, both of whom had also been part of the 2017-18 full WASC review, reviewed the goals and the school’s comprehensive data and results and recommended that the school continue to 1) focus on the advisory program as a means to propel scholars towards college and career readiness, 2) expand parental and community involvement, and 3) continue the focus on objective measure of student academic success (i.e., the CAASPP/CAST), but also focus on building the school’s Advanced Placement program towards increasing student success on the AP exams.
## Goals and Actions

### Goal #1

</tbody>
</table>

An explanation of why the LEA has developed this goal.

Sac High’s mission is to graduate self-motivated, industrious, and critically thinking leaders who are committed to serving others, passionate about lifelong learning and prepared to earn a degree from a four-year college. To ensure students are on track to graduate as such, there is a need to serve all students at a high level and fill any gaps in achievement.

Progress on the CAASPP in ELA and math provide a good measure of student progress towards meeting Goal 1. Analysis of the data indicates that students were making academic growth on the CAASPP, in both ELA and math with little difference in performance among the significant subgroups at Sac High. Overall, the percent of students who met or exceeded standard on the latest CAASPP ELA (2019), rose 32% to 69% and on math rose 16% to 27% met/exceeded the standard. Students were not assessed on the CAASPP in 2020 due to the COVID-19 school shutdown. 2021 CAASPP scores will not be available until summer 2021.

Although significant subgroups did not differ in performance, EL students (not a significant subgroup at Sac High) did not perform as the rest of the school in 2019. 25% of EL students were considered Well Developed (level 4 of 4 levels) on the 2020 Summative ELPAC, but 0% met the ELA standard on the CAASPP in 2019. Only 1 student was eligible for reclassification based on the reclassification
On the 2019 California Dashboard, 48% of EL students were making progress towards English Language Proficiency, which is considered low.

To prepare scholars for college, Sac High offers a number of AP (advanced placement) courses; however, scholar success on the AP exams does not reflect the college-going focus. There is a need to focus on student preparation for AP courses and, in the future (2022-23 and beyond) expanding on AP course offerings and evaluating AP course curriculum and instruction.

In addition, the school needs to focus on maintaining high standards for teacher created curriculum and materials as well as ensuring teachers are assigned to teach within their credential or are otherwise deemed to be competent in their content area.

The final metric for Sac High is graduation rate and college acceptances. The school has maintained a relatively high 4-year cohort graduation rate across the years, and the percentage of seniors who are accepted to a 4-year college/university has been at least 95% over the past three years. The school wants to maintain this high standard and ensure that all students graduate on time and have the option to continue their education at a higher level.

---

Page 43
** Sac High students had the option to postpone earning their diploma and enroll in MicroCollege, Sac High's 13th year early college program which started in 2019-2020. 19 students from the class of 2019 (13.5% of the cohort) elected to enroll in the program, which if added to our 80.1% graduation rate provides a corrected graduation rate of 93.6%. All Sac High students from this cohort are enrolled in college courses during the 2019-20 school year.

Goal Analysis
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

The LCAP was NA for 2020-21; however the school completed a standalone SPSA for the 2020-21 school year as was required for Title I schools. Despite the challenges of the 2020-21 school year, the school was able to implement most of the planned activities including ongoing curriculum development, professional development, data analysis and additional support for students through the co-teaching/inclusion model. The school was not able to create a process to track special education IEP goals and intervention was limited in 2020-21. And the school continues to build curriculum that is aligned within content areas and across grade levels. Not all content areas have been fully developed.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There were not any significant differences in budgeted and actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.
Continued work on common core curriculum creation aligned to benchmarks allowed teachers to see regular progress of scholars in a year without CAASPP data (2019-20). Ongoing professional development provided guidance and coaching for teachers as a group, but also individually via weekly or bi-weekly observations and meetings with coaches. Data analysis continues to be a key in monitoring scholar progress for teachers as well as for scholars and parents/guardians. The inclusion model (co-teaching) continues to support students in the classroom with identified needs (i.e, EL, special education and 504 students), but also for general students in need of extra support. Even in distance learning and hybrid models, scholars benefit from the extra adult in the classroom to focus one-on-one or small groups.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal #1 is not a new goal; however, each year the school revises and refines the actions and strategies associated with the goal. In the 2020-21 SPSA a new action/strategy was added to monitor the progress of students with disabilities by measuring and monitoring IEP goals. This process was not created for implementation in 2020-21 and will instead be implemented in 2021-22 to start to accurately track progress beyond just CAASPP scores for this group of scholars. In addition, the school will monitor teacher assignments and where a teacher is misassigned, seek board approval for the teacher to teach the subject outside of their credential if that teacher is deemed to be an effective teacher in that subject area. Finally, the school will continue extended learning time, as it is not new in 2021-22, but has added it to the planned actions/strategies tied to this goal as an effective way to support scholars outside of the regular school year.
Goal #2

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
</table>
| 2      | Ensure all scholars are educated in learning environments that are clean, healthy and safe. | LCFF priority 1: Basic services or basic conditions at schools  
LCFF priority 6: School Climate |

An explanation of why the LEA has developed this goal.

Sac High will ensure that all students experience a safe and welcoming learning environment that supports them in college and career preparation. Analysis of the data indicates that the school does prioritize a safe and clean environment and that changes in discipline practices have resulted in fewer student suspensions and, therefore, more time in class for scholars. In addition, building school culture is essential to ensuring that staff and students have a safe and nurturing environment in which to learn and instruct.

Due to the COVID-19 school closure and adjusted instruction models (distance learning and hybrid), there is a need to reset expectations in 2021-22 and reteach all stakeholders on campus-wide practices and procedures regarding attendance, behavior and Sac High’s high expectations. Resetting and reteaching will help build relationships among all stakeholders.

Data for 2019-20 and projected 2020-21 are not comparable to previous years. For example, suspensions were collected for the full school year in 2019-20 (including distance learning from March to June 2020) and the 2020-21 school year, but that data is not comparable to 2018-19 due to limited time on campus during this time period. The school will continue to monitor school safety data, primarily suspensions, once school returns to full in-person instruction.

                                                        ● Utilize school leadership body (Senate) to maintain positive school culture and community through student events and weekly announcement videos.                                                                 | $14,700     | N            |
Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Despite distance learning and hybrid models wherein scholars were not on campus all day, every day, the school was able to hold multiple engagement events, follow through on implementation of school policies and procedures (i.e., attendance and expectations while attending a Zoom class), and continue the Dean Team with a larger focus on scholar attendance and family outreach. Living in a virtual world for most of the year, when scholars were welcomed back on campus for the hybrid model, there were new challenges in engaging scholars and families. Events were virtual or drive-thru, attendance was tracked and monitored in a different way, and communication with individual scholars and families has been challenging.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There were not any significant differences in budgeted and actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

Teachers, staff and parents participated in and indicated that they appreciated the ongoing events and communication while the school stressed safety and health through limited face-to-face interactions. It is hard to gauge the effectiveness on behavior as suspensions decreased significantly from 2019-20 to 2020-21 primarily due to the lack of on-campus activity.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.
Goal #2 is also not a new goal for Sac High. However, due to the global pandemic, 2021-22 presents a new set of challenges as it is expected that scholars will return to campus full-time. Under that assumption, we will focus on resetting expectations for all stakeholders, starting with staff and teachers as they return to start the school year in summer PD and continuing through family orientations, Culture Week, and advisory.
Goal #3

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Build a strong sense of community through frequent, transparent communication with families and ample opportunities for families to engage and support their children's education.</td>
</tr>
</tbody>
</table>

LCFF priority 3: Parental Involvement and Family Engagement

An explanation of why the LEA has developed this goal.

The school recognizes the need for a strong school community which involves all stakeholders, particularly parents. Keeping parents engaged requires consistent communication and opportunities to participate in meaningful ways on the campus and be involved in the change management process.

**Goal Analysis**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The school was able to implement all of the planned strategies and activities.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There were not any significant differences in budgeted and actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

Anecdotally and through qualitative input, parents, teachers and staff indicated that despite the distancing, the school’s events and ongoing communication helped maintain the school community in 2020-21.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

This is a maintenance goal as Sac High strives to continue to engage parents and families. No new strategies or activities are identified; however the school is always expanding the modes of communication that may not be reflected in the actions/strategies listed here (i.e., new technologies).
Goal #4

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Provide scholars with ample and varied opportunities to engage in the school community.</td>
</tr>
</tbody>
</table>

**LCFF priority 6: School climate**

An explanation of why the LEA has developed this goal.

In the last student survey (2018-19), only 43.5% of students indicated that they thought the school offered good after-school and extracurricular options. Offering more and varied options for students to participate in and explore non-academic activities may increase pupil engagement and a positive school climate. In addition, to ensure that homeless students have access to all programs and opportunities at Sac High, the school offers individual support for homeless scholars as necessary.

</table>
Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Sports and clubs were limited during 2020-21 and the school did not create a system to track participation during the year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There were not any significant differences in budgeted and actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

Sac High has few identified homeless students; however, the school does have a trained homeless liaison and offers additional support to low-income families that are not identified as homeless. The expansion of activities and tracking will be implemented in 2021-22 to determine baseline levels. The student survey has not been completed as of May 2021 and the data will not be comparable to other years.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.
Sac High has had student engagement opportunities through athletics and clubs throughout the years; however, participation has not been systematically tracked to see the participation rate as a whole but also to gauge interest through participation in those activities that are offered. The school will gather this evidence in 2021-22 to further refine offerings towards the goal of increasing engagement.
Goal #5

<table>

| 1        | Institute and revise strategies to maintain high attendance | ● Adhere to attendance policy  
● Continue to refine the attendance incentive system  
● Continue to track and report student progress more often during school year including: monthly attendance audit, biweekly chronic absenteeism review, daily individual student review as necessary  
Office Staff - general fund | $123,383   | N            |
Goal Analysis
An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The school implemented strategies to increase attendance and actually had a more robust tracking and monitoring system in place as per it’s 2020-21 Learning Continuity and Attendance Plan that included increased personal attention to attendance (more phone calls and home visits) and increased staffing to support this new focus. Deans and other staff assisted in monitoring attendance and working with families.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There were not any significant differences in budgeted and actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

The school's ADA as of the 3rd quarter 2020-21 was on par with previous years despite distance learning and hybrid models. Unfortunately, the data is not comparable to previous years so the school will have to re-evaluate previous years data as we move into 2021-22.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The school will continue the practice started in 2020-21 to track chronic absenteeism by school and individual students at least bi-weekly which may also affect average daily attendance (ADA).
Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2021-22]

<tbody>
<tr>
<td>21.56%</td>
<td>$810,620</td>
</tr>
</tbody>
</table>

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Supporting students with identified needs are always at the forefront of planning. The school’s unduplicated percent (unduplicated count of students eligible for free/reduced meals, English learners, foster youth and homeless students) is over 70% so the school provides schoolwide programs and incorporates support for at-risk scholars.

The school uses a co-teaching and inclusion model so EL, special education and 504 students receive additional support in the classroom. Small group instruction and parallel teaching with co-teachers in core classes address additional differentiated learning needs. Administrators, homeless liaisons, and culture and operations coordinators work with identified homeless and foster scholars to ensure that they have the necessary resources to continue their education on an individual basis as the school typically has a small number of these students. SHPS also regularly reviews their policies to ensure that all students have access to the standard academic course of study, all programs and activities outside of the classroom, and the necessary resources to access academic and non-academic opportunities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The co-teaching model was implemented to improve services to English learners and special education and 504 students, as well as foster and homeless youth as necessary (which constitute a very small percentage of the school’s population), and low-income students which do constitute a large portion of the population. The school uses Title I funds as well as general funds to place co-teachers in the classroom and will increase the number of co-teachers in 2021-22. In addition, the school has an EL coordinator that works with school leaders to increase professional development for teachers and monitor EL students in the classroom to better...
provide supports directly in the classroom. In addition, the school sets aside funds each year to assist homeless youth and ensure they are able to participate in all aspects of the school from activities to daily participation in classes (i.e., through uniform and transportation assistance). As the school is over 70% unduplicated, additional staff and teachers that are not parsed out for unduplicated services are able to provide supports to low-income, foster, homeless and English learner scholars as necessary.

Plan Summary

Stakeholder Engagement

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education’s (CDE’s) Local Agency Systems Support Office by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning**: The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Stakeholder Engagement**: The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance**: The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).
Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).

Annually reviewing and updating the LCAP to reflect progress toward the goals (EC 52064(b)(7)).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.
Plan Summary

Purpose
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year’s LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- Schools Identified: Identify the schools within the LEA that have been identified for CSI.
- Support for Identified Schools: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
**Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

---

**Stakeholder Engagement**

**Purpose**

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC 52064(e)(1)). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: [https://www.cde.ca.gov/re/lc/](https://www.cde.ca.gov/re/lc/).

**Requirements and Instructions**

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

**Local Control and Accountability Plan:**

For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA's philosophical approach to stakeholder engagement.

Prompt 2: “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
● Inclusion of action(s) as contributing to increased or improved services for unduplicated services
● Determination of effectiveness of the specific actions to achieve the goal
● Determination of material differences in expenditures
● Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
● Determination of challenges or successes in the implementation of actions

### Goals and Actions

#### Purpose
Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

#### Requirements and Instructions
LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal**: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- **Broad Goal**: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal**: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some
metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.

- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.

- **Desired Outcome for 2023-24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.
Timeline for completing the "Measuring and Reporting Results" part of the Goal.

<td>Enter information in this box when completing the LCAP for 2023–24. Leave blank until then.</td>
<td>Enter information in this box when completing the LCAP for 2024–25. Leave blank until then.</td>
<td>Enter information in this box when completing the LCAP for 2021–22.</td>
</tr>
</tbody>
</table>

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.
**Goal Analysis:**

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

### Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

**Purpose**

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

This section must be completed for each LCAP year.
When developing the LCAP in year 2 or year 3, copy the “Increased or Improved Services” section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

**Percentage to Increase or Improve Services:** Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students:** Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:
After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55%: For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55%: For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40% or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.
For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils:
Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

**Expenditure Tables**

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
**Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All”, or by entering a specific student group or groups.

**Increased / Improved:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

If “Yes” is entered into the Contributing column, then complete the following columns:

- **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

**Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.

**Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:

- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel:** This amount will be automatically calculated.

**LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

**Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.

**Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
